

**MENTORS DON'T HAVE TO BE  
SUPERHUMAN  
BUT THEY CAN FEEL LIKE IT**

## MENTOR PROFILE

# KYLE FRASER

28, GRANDE PRAIRIE, AB

### WHAT MOTIVATED ME TO GET INVOLVED

I stay involved in the community as much as possible. We have opportunities to help out charities through work but I was looking for something more direct. As a mentor, you get to see firsthand, every week, the difference you are making in someone's life.

### WHAT I ENJOY MOST ABOUT BEING A MENTOR

Spending time with my mentee!  
He's awesome and I always looked forward to hanging out with him. His confidence grew exponentially. He went from having a tough time looking a person in the eye to doing a presentation on dyslexia to his class. He invited me to attend and it was incredible. I'm so proud of him.

*"It always seems impossible until it's done." ~ Nelson Mandela*

### OCCUPATION

Firefighter

### HOBBIES & INTERESTS

Hockey, Olympic weight-lifting, mountain biking, German Shepherds, reading, and carpentry.

### MY ROLE AS A MENTOR

I was a mentor for 2 years. My mentee was 10 when we started spending time together. Most of the time we would try and stay active playing street hockey/floor hockey, rock climbing, and playing soccer, but we also played video games, worked on reading/ writing, played chess, baked protein bars and talked about school.
