

# YOUTH IN CARE

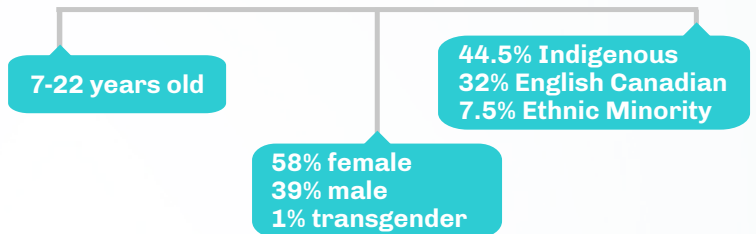

## Annual Evaluation Report

April 2022 - March 2023

**121 youth**

served in 1:1 mentoring

## Mentoring Matches

average match length was

**34 months**

**1 in 3** closed matches  
continued informally

**106** youth currently  
waiting for a mentor

Youth face many adversities and  
at higher rates than youth in other  
agency programs

## Collective Outcome

 **87% of youth experienced a  
developmental relationship**

which research has found builds a number of fundamental protective factors<sup>1,2</sup>

## Conclusions

Overall the data suggests that youth served in the Youth in Care program are experiencing positive, lasting relationships with their mentors, which research has found makes them more likely to grow up successfully.<sup>1,2</sup>
